Forecast for Thursday 02 Sep 2021

Weather: Early low cloud, light rain or drizzle gradually lifting through the morning to give some good spells of sunshine by the afternoon. Some cloud redeveloping during the evening across eastern hills, but otherwise clearer and turning rather chilly.

Chance of cloud free mountain/hill tops above 600m: 20%, increasing 90% by afternoon.

Visibility: Poor at first, and very poor above 400m with hills obscured by cloud. Cloud breaking and lifting though the morning to give patchy cloud above 700m by midday. Cloud thickening slightly above 600m during the evening, with visibilities falling again. Good to very good visibility below the cloud.

Meteorologist's View

Some uncertainty with regard the speed of cloud breaking up through the morning. The sun remains strong even as we come towards the end of summer with Moderate UV likely in any persistent sunshine into the afternoon

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Friday 03 Sep 2021

Weather: A chilly start to the day after some clear spells overnight. Cloud thickens from the east during the early hours bringing the risk of the odd spot of drizzle at first. Any low cloud will lift and break through the morning to leave a dry afternoon with sunny spells.

Maximum wind: Easterly 10-15 mph with occasional gusts 20-25mph.

Chance of cloud free mountain/hill tops above 600m: 30%, increasing to 60% by midday then 80% by the late afternoon.

Visibility: Poor at first, and very poor above 400with hills obscured by cloud, though a chance of some clear spells above 700m. Cloud breaking and lifting though the morning to give patchy cloud at 800m by midday. This continues through the afternoon with cloud lifting above the tops. Good to very good visibility below the cloud.

Temperature: **Valleys:** Plus 11 Celsius, increasing to Plus 20 Celsius by afternoon.
At 600m: Plus 8 Celsius, increasing to Plus 12 Celsius later.
Freezing level: Above the summits.
